MEDIA ALERT

Stilwell Baker Continues Growth Path

Portland, Ore. – April 28, 2010 [Stilwell Baker Inc.](#), a leading provider of contract engineering and engineering services to electronics design companies has recently hired Rich Brinkly as Senior Mechanical Engineer and Mark Olson as Senior Electrical Engineer.

Rich Brinkly, is a Senior Mechanical Engineer with 19 years of broad experience in test and measurement, fiber optic and lasers, consumer electronics, and product design. His strong background in R&D, new product development, and manufacturing is a key addition to the team. Brinkly holds 4 patents and earned his BSME from Oregon State University.

Mark Olson, is a Senior Electrical Engineer who has 20 years experience in digital design and prototyping including high speed interconnects and EMI noise reduction to Stilwell Baker. Olson has designed and built custom manufacturing equipment, managed outsourced design projects, and qualified designs through EMI, ESD and Environmental test cycles in addition to taking designs through the complete design lifecycle. Olson earned his BSEE from Oregon State University.
